

February 5, Thursday - DAY 1		
REGISTRATIONS & BADGE COLLECTION OPENS AT 8:00 AM - 8:30 AM		
February 5 - Thursday - Ballroom 1		
LIVE SURGICAL MARATHON Laparoscopic Cases Hysteroscopic Cases		
8:30 AM to 18:00 PM		
February 5 - Thursday - Ballroom 2		
WS 1 & 7 HOT Hands-on Hysteroscopy Training Workshop Chair: Dr. Rudi Campo (Belgium) Pr. Attilio Di Spiezio Sardo (Italy)		
THEORETICAL - 8:30 AM to 10:30 AM (ALL GROUPS)		
Faculty Name	Lecture Title	Duration
Dr. Ursula Catena (Italy)	The Digital Hysteroscopic Clinic "The model for uterine diagnosis and treatment"	15 min
Dr. Sharad Ansari (Iran)	IBS Shaver Indications and Technique	15 min
Dr. Brunella Zanolli (Italy)	Mini Bipolar resectoscope Indications and Technique	15 min
Dr. Evy Gillet (Belgium) or Dr. Helena Van Kerrebroeck (Belgium)	Adenomyosis The new Hysteroscopic challenge.	15 min
All Faculties	Hands on and Q&A	60 Min
END - BREAK & TRANSITION TO THE NEXT GROUP		5 Minutes
COFFEE BREAK 10:30 AM to 11:00		
PRACTICAL HANDS-ON 11:00 AM to 13:00 PM (GROUP 1) --- COFFEE BREAK 13:00 - 13:30 --- 13:30 PM to 15:30 PM (GROUP 2) --- COFFEE BREAK 15:30 - 16:00 --- 16:00 PM to 18:00 PM (GROUP 3)		
Welcome Remarks - 8:30 am - 9:00 am		
February 5 - Thursday - Breakout Room 1		
WS 2 & 8 HOT Hands-on Suturing Training Workshop Chair: Dr. Istvan Argay (Hungary) Dr. Bedayah Amro (UAE)		
Faculty Name	Lecture Title	Duration
PRACTICAL HANDS-ON (2 hours 30 Mins each group of 25 to 30 Pax - 2 Participants per station)		
(with break in between groups)		

11:30 AM to 14:00 PM (GROUP 2) With Dr. Istvan Argay & Dr. Bedayah Amro --- COFFEE BREAK 14:00 - 14:30 --- 14:30 PM to 18:00 PM (GROUP 3) With Dr. Istvan Argay & Dr. Bedayah Amro		
THEORETICAL - 15 Minutes per group		
All Faculties	Welcome, Introductions and Course Overview	15 Minutes
	Perfect stitch theory, needle and needle holder anatomy and knowing basic knotting technique	
	HANDS-on: Loading the needle, lay on the tissue (* 5 minutes demonstration at main station)	25 Minutes
	HANDS-on: Stitch dominant hand, oblique line (*5 minutes demonstration at main station)	25 Minutes
	Q&A Discussions	5 minutes
	HANDS-on: Knotting, expert technique (*10 minutes demonstration)	60 Minutes
Suturing Competition for Workshop Participants - With winner recognition		20 Minutes
END - BREAK & TRANSITION TO THE NEXT GROUP		5 Minutes
Welcome Remarks - 8:30 am - 9:00 am		

February 5 - Thursday - Breakout Room 2		
SIGNATURE MASTERCOURSE		
"Uterine Myomas from A to Z: Precision Diagnosis, Timeless Techniques, and Emerging Therapies"		
Chair:		
Pr. Juan Giliabert (Spain)		
Pr. Ertan Sarıdoğan (UK)		
Learning Objectives:		
By the end of the session, participants should be able to:		
1.Master current diagnostic strategies, including the role of ultrasound, MRI, and AI-enhanced imaging.		
2.Understand classical surgical techniques for myomectomy and hysterectomy, including technical rules and decision-making.		
3.Evaluate medical and non-excisional treatment options, including UAE, RFA, HIFU, and microwave ablation.		
4.Analyze comparative outcomes of different techniques in terms of bleeding, fertility, recovery, and reintervention.		
5.Build personalized treatment algorithms based on patient profile, symptoms, fertility goals, and available technology.		
9:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
Pr. Ertan Sarıdoğan (UK)	Understanding the Landscape of Uterine Myomas: Prevalence, Impact, and Patient Profiles	15 Minutes
Pr. Nicolas Bourdel (France)	Diagnostic Strategies - From Ultrasound to AI-enhanced MRI: Mapping Myomas for Personalized Care*	15 Minutes
Pr. Juan Giliabert (Spain)	The Classical Cornerstone - Mastering the Technical Rules: Myomectomy and Hysterectomy in the Age of Precision Surgery	15 Minutes
Dr. Ibrahim Abd Elrahman (UAE)	Laparoscopic Myomectomy Over The Years - Lessons Learnt	15 Minutes
Dr. Waël Sammour (UAE)	Never Too Small: Fibroma for Contained Morcellation	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
COFFEE BREAK - 10:30 AM - 11:00 AM		
February 5 - Thursday - Breakout Room 2		

Robotic Chair: Dr. Denis Tsepov (UK)		
11:00 AM to 12:30 PM		
Faculty Name	Lecture Title	Duration
Dr. Denis Tsepov (UK)	Introduction to robotic surgery : see more , excise more , damage less	15 Minutes
Dr. Charlotte Maene (Belgium)	Surgical robot, robotic instruments and DaVinci Eco-system	15 Minutes
Ms. Nadine Di-Donato (UK)	Robotic hysterectomy: from simple to crazy	15 Minutes
Dr. Denis Tsepov (UK)	Robotic Myomectomy : tips and tricks	15 Minutes
Dr. Denis Tsepov (UK)	Robotic surgery for endometriosis: from peritoneal excision to bowel resection. Robotic techniques and outcomes	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
LUNCH BREAK - 12:30 AM - 14:00		
February 5 - Thursday - Breakout Room 2 SIGNATURE MASTERCLASS Difficult Hysterectomy		

Dr. Razan Nasir (UAE) Pr. Sven Becker (Germany)		
Learning Objectives:		
By the end of the session, participants should be able to:		
1. Identify the main predictors of difficulty in laparoscopic hysterectomy.		
2. Understand the anatomical and technical challenges in difficult hysterectomy scenarios.		
3. Apply advanced dissection techniques and energy sources safely.		
4. Manage intraoperative complications and conversions effectively.		
5. Tailor the surgical approach to complex patient profiles (e.g., endometriosis, obesity, prior surgeries, large uteri).		
14:00 PM to 15:30 PM		
Faculty Name	Lecture Title	Duration
Dr. Razan Nasir (UAE)	Defining "Difficult" Hysterectomy	15 Minutes
Dr. Nour Abosada (UAE)	Preoperative Planning & Strategy	15 Minutes
Dr. Hanan Gharbi (UAE)	Intraoperative Tips & Tricks	15 Minutes
Pr. Sven Becker (Germany)	MIS-Hysterectomy – The Never-Always List of Do’s and Don’ts	15 Minutes
All Faculties	Case-Based Discussion and Q&A	30 Minutes
COFFEE BREAK - 15:30- 16:00		

Ultrasound in ART patients: how a correct diagnosis can improve their surgical and medical management		
Chair: Pr. Caterina Exacoustos (Italy)		
Learning Objectives:		
16:00 PM to 18:00 PM		
Faculty Name	Lecture Title	Duration
Dr. Alessandra Di Giovanni (Italy)	DEEP Endometriositis step by step US evaluation	15 Minutes
Pr. Caterina Exacoustos (Italy)	Adenomyosis: the correct US diagnosis and impact on reproductive outcome	15 Minutes
	ENDOMETRIOMA: impact on ART	15 Minutes
		15 Minutes
	LIVE SCAN with Q&A Discussions	
	Polycystic ovary: sonographic exploration, definitions and impact on ART	15 Minutes
	Uterine fibroids impact on reproduction	15 Minutes
	Diagnosis and impact of congenital uterine anomalies	15 Minutes
All Faculties	LIVE SCAN with Q&A Discussions	15 Minutes
Welcome Remarks - 8:30 am - 9:00 am		

SIGNATURE MASTERCLASS "Frozen Pelvis: Unfreezing the Surgical Mindset"		
Chair: Pr. Mohamed Mabrouk (UK) Pr. Rodrigo Fernandes (Brazil)		
Learning Objectives: By the end of the session, participants should be able to: 1. Recognize the defining anatomical and surgical features of a "frozen pelvis." 2. Apply compartment-based logic to navigate obliterated planes. 3. Perform ureterolysis and nerve-sparing dissection in hostile fibrotic environments. 4. Anticipate and manage intraoperative complications during radical dissection. 5. Shift from a reactive to a proactive mindset when planning complex pelvic surgery.		
9:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
Pr. Rodrigo Fernandes (Brazil)	Introduction: Definition, causes (endometriosis, malignancy, radiation), key challenges	10 Minutes
Dr. Marco Puga (Chile)	Anatomy Revisited	15 Minutes

Dr. Marco Puga (Chile)	Surgical Strategies	20 Minutes
Pr. Rodrigo Fernandes (Brazil)	Case Video Analysis	20 Minutes
All Faculties	Q&A Discussions	10 Minutes

COFFEE BREAK - 10:30 AM - 11:00 AM		
February 5 - Thursday - Exclusive Room		
SIGNATURE MASTERCLASS		
"Laparoscopic Complications in Gynecologic Surgery - Prevention, Recognition, and Rescue"		
Chair:		
Pr. Resad Paya Pasic (USA)		
Learning Objectives:		
By the end of the session, participants will be able to:		
• Recognize the most frequent and high-impact complications in GYN laparoscopy. • Integrate preventive strategies into surgical planning and execution. • Develop step by step approaches for early detection and rapid intervention. • Share lessons learned from real cases to reduce recurrence.		
11:00 AM to 12:30 PM		
Faculty Name	Lecture Title	Duration

Dr. Nassif Nasib (Iran/Lebanon)	High-Risk Complications & Prevention Strategies: Major Vascular Injuries	15 Minutes
Dr. Paya Resad Pasic (USA)	High-Risk Complications & Prevention Strategies: Urinary Tract Injuries (Bladder & Ureter)	15 Minutes
Dr. Marco Bassi (Brazil)	High-Risk Complications & Prevention Strategies: Bowel Injuries	15 Minutes
	Energy-Related Injuries & Technology Pitfalls	10 Minutes
Dr. Antoine Watrelot (France)	Managing the Aftermath & Surgical Safety Checklist	20 Minutes
All Faculties	Take-Home Messages & Surgical Safety Checklist	5 Minutes

LUNCH BREAK - 12:30 AM - 14:00		
--------------------------------	--	--

February 5 - Thursday - Exclusive Room		
SIGNATURE MASTERCLASS "The Innovation Panel: New Frontiers in Myoma Therapy" Chair: Pr. Juan Gilabert (Spain) Learning Objectives: By the end of the session, participants should be able to: 1. Master current diagnostic strategies, including the role of ultrasound, MRI, and AI-enhanced imaging. 2. Understand classical surgical techniques for myomectomy and hysterectomy, including technical rules and decision-making. 3. Evaluate medical and non-excisional treatment options, including UAE, RFA, HIFU, and microwave ablation. 4. Analyze comparative outcomes of different techniques in terms of bleeding, fertility, recovery, and reintervention.		

14:00 PM to 15:30 PM		
Faculty Name	Lecture Title	Duration
local speakers	Uterine Artery Embolization: Outcomes, complications, fertility data	10 Minutes
Dr. Emilie Faller (France)	Radiofrequency Ablation (RFA & TFA): Techniques, data, and pregnancy reports	10 Minutes
	HIFU & MR-guided Focused Ultrasound: Patient selection and long-term data	10 Minutes
	Microwave Ablation (MWA): Results, feasibility, and real-world cases	10 Minutes
	SPONSOR/PARTNER	15 Minutes
	Comparative Outcomes & Decision-Making	
Pr. Igno Siebert (South Africa)	Choosing Wisely: Evidence-Based Myoma Therapy by Patient Profile	20 Minutes
All Faculties	Q&A Discussions	15 Minutes
COFFEE BREAK - 15:30 PM - 16:00 PM		
February 5 - Thursday - Exclusive Room		
SIGNATURE MASTERCLASS		
CONGESTION		
Chair:		
Dr. Nour Abosada (UAE)		
Learning Objectives:		
16:00 PM to 18:00 PM		
	Anatomy and Pathways of the Pelvic Venous System	
Dr. Nour Abosada (UAE)	Venous Hemodynamics and Mechanisms of Venous Congestion	15 Minutes

Radiologist TBC	Diagnostic models , Role of transvaginal Doppler, CT, MRI, and venography.	15 Minutes
Latifa Team	How Laparoscopy Reveals What Imaging Misses and Corrective Techniques	15 Minutes
TBC	Non-Surgical Treatment, The Role of Coil Embolization and IR Techniques.	15 Minutes
All Faculties		15 Minutes

CONGRESS WORKSHOPS: Total of
February 6, Friday - DAY 2

VIDEO ABSTRACTS AT 8:00 AM - 9:00 AM

February 6 - Friday - Ballroom 1

PS

"Crafting Excellence in MIS"

The Craft: Surgical Mastery for Endometriosis

Chair:

Pr. Charles Miller (USA)

Learning Objectives:			
By the end of the session, participants should be able to:			
Elevate technical execution through refined skills, precision, and consistency.			
9:00 AM to 10:30 AM			
Faculty Name	Lecture Title	Duration	
Pr. Benoît Rabischong (France)	Anatomical precision: Recognizing normal vs. distorted pelvic anatomy; landmark-based dissection in complex disease.	15 Minutes	
Dr. Zeinab Hakim (UAE)	Stepwise surgical strategies: Global strategies	15 Minutes	
Dr. William Kondo (Brazil)	Stepwise surgical strategies: Peritoneal disease excision	15 Minutes	
Pr. Charles Miller (USA)	Stepwise surgical strategies: Ovarian endometriomas	15 Minutes	
Pr. Paulo Ayroza (Brazil) - Online or PR	Stepwise surgical strategies: Deep infiltrating endometriosis (posterior, lateral, anterior compartments)	15 Minutes	
Pr. Helder Ferreira (Portugal)	Energy & instrument selection	15 Minutes	
	Ergonomics and efficiency	15 Minutes	
All Faculties	Q&A Discussions - Take Home Tools: Endometriosis Surgery Precision Checklist	15 Minutes	
FREE COMMUNICATION 2 AT 10:30 AM - 11:20 AM			
COFFEE BREAK AT 11:20 AM - 11:40 AM			
February 6 - Friday - Ballroom 1			
Round Table			
"Crafting Excellence in MIS"			

Chair:		
Pr. Vyta Senikas (Canada)		
Pr. Joerg Keckstein (Austria)		
Learning Objectives:		
By the end of the session, participants should be able to:		
Cultivate the mental discipline to choose the right operation for the right patient at the right time.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Dr. Sami Sadoon (UAE)	Diagnosis to indication	15 Minutes
Pr. Joerg Keckstein (Austria)	Classification & staging	15 Minutes
Pr. Mario Malzoni (Italy)	From Scan to SCeplaf: How Preoperative Imaging Shapes Personalized Surgery	15 Minutes
Pr. Vyta Senikas (Canada)	Team mental rehearsal	15 Minutes
Dr. Antoine Watrelot (France)	Managing surgical stress	15 Minutes
	Ethical boundaries	15 Minutes
All Faculties	Round Table "Surgical Dilemma Rounds" - Take Home Tools: Surgical Decision-Matrix for Endometriosis	15 Minutes
COFFEE BREAK AT 13:10 PM - 14:40 PM		
February 6 - Friday - Ballroom 1		

"Lymph node assessment in early cervical cancer, past, present and future"		
Chair:		
14:40 PM to 15:10 PM		
Faculty Name	Lecture Title	Duration
Pr. Denis Querieu (France)	"Lymph node assessment in early cervical cancer, past, present and future"	30 Minutes
February 6 - Friday - Ballroom 1		
PS		
"Crafting Excellence in MIS" The Innovation: Shaping the Future of Endometriosis Surgery		
Chair:		
Dr. Shaheen Khazali (UK) Dr. Afshin Fazel (France)		
Learning Objectives:		
By the end of the session, participants should be able to: Describe the importance of lymph node assessment in early-stage cervical cancer. Identify the challenges associated with lymph node assessment in early-stage cervical cancer. Discuss the latest techniques and technologies used in lymph node assessment.		

15:10 PM to 16:40 PM		
Faculty Name	Lecture Title	Duration
Pr. Helder Ferreira (Portugal)	Advanced visualisation	15 Minutes
Pr. Gaby Mowad (USA)	Precision tools	15 Minutes
Pr. Mario Malzoni (Italy)	Specimen extraction innovations	15 Minutes
Dr. Shaheen Khazali (UK)	Artificial intelligence and its role in unifying the endometriosis staging- #Enzian and VNESS (Visual Numeric Endometriosis Staging System)	15 Minutes
Dr. Atshin Fazel (France)	An update on the biomarkers of Endometriosis	15 Minutes
All Faculties	Q&A Discussions - Take-home tools: Innovation readiness checklist — how to evaluate new technology for your practice	15 Minutes
COFFEE BREAK AT 16:40 PM - 17:00 PM		

February 6 - Friday - Ballroom 1		
PS "Endometrioma"		
Chair: Pr. Michéle Nisolle (Belgium) Pr. Charles Miller (USA)		
Learning Objectives:		
17:00 PM to 18:30 PM		
Faculty Name	Lecture Title	Duration
Pr. Charles Miller (USA)	Looking at best practices in the treatment of endometrioma in the patient interested in future fertility	15 Minutes
Pr. Michéle Nisolle (Belgium)	Ablative techniques for ovarian endometriomas	15 Minutes
Pr. Shaima Alsuwaidi (UAE)		15 Minutes
Dr. Nour Abosada (UAE)	Recent data comparing sclerotherapy and laser outcomes, recurrence and complications	15 Minutes
Pr. Keith Isaacson (USA)		15 Minutes
All Faculties	Q&A Discussions	15 Minutes
FREE COMMUNICAITON 1 - 8:00 AM - 9:00 AM		
February 6 - Friday - Ballroom 2		
PS "ONCOLOGY 1"		
Chair: Pr. Roberto Tozzi (Italy) Dr. Audrey Tsunoda (Brazil)		
8:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
Pr. Roberto Tozzi (Italy)	Type C2 nerve sparing radical hysterectomy in 183 patients: the "Two Bridges" technique	15 Minutes
Dr. Audrey Tsunoda (Brazil)	Molecular tumor board meets MIS: can technology personalize surgery?	15 Minutes
Pr. Ewa Mlinerowicz-Nabzdyk (Poland)	Cytoreductive surgery in minimally invasive access - experience of ESGO accredited center.	15 Minutes
Pr. Shailesh Puntambekar (India)	Role of MIS following shape trial and LACC trial	15 Minutes
Dr. Zuhdi Khalid Naghabandi (UAE)		15 Minutes
FREE COMMUNICAITON 3 - 10:30 AM - 11:20 AM		

COFFEE BREAK - 11:20 AM - 11:40 AM		
February 6 - Friday - Ballroom 2		
PS "Fueling Surgical Success: Nutrition Strategies for Optimal Recovery and Outcomes: Eat to heal!"		
Chair: Dr. Andre Vinicius (Brazil)		
Learning Objectives:		
By the end of the session, participants should be able to: To highlight the critical role of perioperative nutrition in enhancing recovery, reducing complications, and improving surgical outcomes, particularly in minimally invasive gynecologic and general surgeries.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Pr. Alessandra Graziotin (Italy)	Nutrition as a Surgical Tool: Why It Matters in Minimally Invasive Surgery	15 Minutes
Dr. Cristina Redondo (Spain)	Perioperative Nutrition in Minimally Invasive Surgery: Evidence, Protocols, and Practice	15 Minutes
Dr. Marco Bassi (Brazil)	Challenges and Controversies in Surgical Nutrition: What the Surgeons Need to Know: EKAS Protocol	15 Minutes
	The Science of Recovery: Nutritional Foundations for Excellence in MIS	15 Minutes
Dr. Andre Vinicius (Brazil)	Eat, Heal, Recover: The Role of Lifestyle and Nutritional Supplementation in the Management of Endometriosis	15 Minutes
All Faculties	Q&A Discussions: Surgical Nutrition Toolkit with practical pre-op and post-op dietary protocols. A systematic workup for nutrition	30 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		

KEYNOTE LECTURE - 14:40 PM - 15:10PM		
--------------------------------------	--	--

February 6 - Friday - Ballroom 2		
PS "Hysteroscopic Complications: Prevention, Recognition, and Management in Challenging Scenarios"		
Chair: Pr. Stefano Bettocchi (Italy)		
15:10 PM to 16:40 PM		
Faculty Name	Lecture Title	Duration
		15 Minutes
Pr. Stefano Bettocchi (Italy)	Fluid Management & Deficit Monitoring: The Foundation of Safe Hysteroscopy:	
Pr. Osama Shawki (Egypt)	Getting a Clear Vision: Pearls for the Perfect View	15 Minutes
Dr. Rudi Campo (Belgium)	Bleeding Control & Prevention in High-Risk Cases	15 Minutes
Dr. Evy Gillet (Belgium) or		15 Minutes
Dr. Helena Van Kerrebroeck (Belgium)	Managing Perforations: Don't Panic, Plan	15 Minutes
Pr. Attilio Di Spiezio Sardo (Italy)	Teaching the "When to Stop" Philosophy:	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
COFFEE BREAK - 16:40 PM - 17:00 PM		

February 6 - Friday - Ballroom 2		
PS "Redefining Support: Mesh-less Laparoscopic Solutions for Pelvic Floor Prolapse and Incontinence"		
Chair: Pr. Revaz Botchorishvili (France) Pr. Guenter Noe (Germany)		
Learning Objectives:		
By the end of the session, participants should be able to: This session will focus on innovative laparoscopic techniques for pelvic floor prolapse and urinary incontinence that avoid the use of synthetic mesh, responding to the growing demand for safer, durable, and biologically friendly options. Experts will discuss tissue-based repairs, autologous grafts, uterine preservation strategies, and evolving suture techniques — all tailored for laparoscopic application.		
17:00 PM to 18:30		
Faculty Name	Lecture Title	Duration
Dr. Haroutyoun Margossian (UAE)	Back to Basics: The Power of Native Tissue in Pelvic Reconstruction	20 Minutes
Pr. Revaz Botchorishvili (France)	Beyond Mesh: Mastering Laparoscopic Sacrocolpopexy with Sutures Alone	20 Minutes
Dr. Gabriele Centini (Italy)	Sealing the Leak: Mesh-less Options for Stress Urinary Incontinence	20 Minutes
Pr. Boris Gabriel (Germany)	Surgery for prolapse and incontinence: vaginal, laparoscopic or robotic approach)	20 Minutes
All Faculties	The Future is Native: Panel Discussion with the Experts	
Pr. Revaz Botchorishvili (France)	Wrap-up and Key Takeaways	10 Minutes
VIDEO ABSTRACTS 2 - 8:00 AM - 9:00 AM		

February 6 - Friday - Breakout Room 1		
SIGNATURE MASTERCLASS "Scar Pregnancy: From Prevention to Management"		
Chair: Dr. Bedayah Amro (UAE)		
9:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
		15 Minutes
Dr. Heba Adan (UAE)	Diagnostic challenges abd imaging techniques	
Dr. Nour Abosada (UAE)	Management strategies	15 Minutes
Dr. Iman Al Halabi (UAE)	CSP and future fertility	15 Minutes
Dr. Bedayah Amro (UAE)	Healing the Scar Right: The First Step in Preventing Scar Pregnancy	15 Minutes
Dr. Zaki Sleiman (Lebanon)	Emerging trends: AI and CSP	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
FREE COMMUNICATION 4 - 10:30 AM - 11:20 AM		
COFFEE BREAK - 11:20 AM - 11:40 AM		

February 6 - Friday - Breakout Room 1		
SIGNATURE MASTERCLASS "Spot the Mistakes and Solve the Complication: A Real-Time Surgical Challenge"		
Chair: Dr. Zeinab Hakim (UAE) Dr. Hanan Charbi (UAE) Dr. Ekaterina Zakharchenko (Russia)		
Learning Objectives:		
By the end of the session, participants should be able to: 1.Recognize early warning signs of common intraoperative errors before they escalate. 2.Apply a stepwise approach to diagnosing the cause of a complication. 3.Select the optimal rescue technique based on anatomy, instrumentation, and patient safety. 4.Debrief and learn from adverse events using structured analysis (root cause + prevention). 5.Integrate checklists, safety protocols, and team communication to reduce recurrence.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Dr. Zeinab Hakim (UAE)	Introduction & Rules of the Game	5 Minutes
Dr. Iman Al Halabi (UAE)	Round 1 – Spot the Mistake (Identification, Mechanism)	15 Minutes
Dr. Hanan Charbi (UAE)	Round 2 – Solve the Complication (How it has been done, Other ways it could be done)	15 Minutes
Dr. Ekaterina Zakharchenko (Russia)	Round 3 – Prevention Challenge	15 Minutes
	Rapid-Fire Bonus Round	15 Minutes
All Faculties	Q&A Discussions - Take-Home Toolkit: Summary of key safety pearls, prevention checklists, and decision-making algorithms.	25 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		
KEYNOTE LECTURE - 14:40 PM - 15:10 PM		

February 6 - Friday - Breakout Room 1		
PS "Preserving the Future: Fertility Strategies in Endometriosis, Oncology, and Advanced MIS"		
Chair: Dr. Wael Sammur (UAE)		
Learning Objectives:		
By the end of the session, participants should be able to: •Understand evidence-based indications for fertility preservation. •Learn minimally invasive approaches that maximize reproductive outcomes. •Clarify contraindications and timing for egg freezing in complex gynecologic conditions. •Foster collaboration between surgeons, oncologists, and fertility specialists.		
15:10 PM to 16:40 PM		
Faculty Name	Lecture Title	Duration
		15 Minutes
Dr. George Botros (UAE)	Fertility Preservation in Deep Infiltrating Endometriosis: Balancing Disease Control and Reproductive Goals	
Dr. Karim El Masry (UAE)	Conservative MIS Approaches in Gynecologic Oncology: What Is Fertility-Sparing and What Is Safe?	15 Minutes
Dr. Audrey Tsunoda (Brazil)	Ovarian Tissue Cryopreservation and Transposition: Surgical Techniques and Clinical Outcomes	15 Minutes
Pr. Human Fatemi (UAE)	Egg Freezing in Gynecology Patients: When, for Whom, and How to Counsel Effectively	15 Minutes
All Faculties	Q&A Discussions & Case-Based Discussion	15 Minutes
COFFEE BREAK - 16:40 PM - 17:00 PM		

February 6 - Friday - Breakout Room 2		
PS "Natural Orifice Specimen Extraction (NOSE): From Innovation to Standard in Advanced Endoscopic Surgery"		
Chair: Pr. Mario Malzoni (Italy)		
Learning Objectives:		
By the end of the session, participants should be able to: 1.Explain the clinical rationale and evolution of NOSE within the framework of minimally invasive surgery. 2.Identify the anatomical and technical considerations for transvaginal and transrectal extraction routes. 3.Master the surgical steps of NOSE, including port placement, containment, extraction technique, and closure. 4.Recognize contraindications, potential complications, and strategies for risk mitigation. 5.Compare outcomes between conventional and NOSE-assisted specimen retrieval. 6.Develop a personal or institutional roadmap for safely introducing NOSE into practice.		
17:00 PM to 18:30 PM		
Faculty Name	Lecture Title	Duration
	Welcome & Session Objectives	10 Minutes
Pr. Mario Malzoni (Italy)	Evolution of NOSE: From Concept to Clinical Evidence	15 Minutes
Dr. William Kondo (Brazil)	NOSE in Gynecologic Surgery: Transvaginal Route	15 Minutes
Pr. Aleksander Popov (Russia)	NOSE in Gynecologic Surgery: Transrectal Route	15 Minutes
	Video-Based Case Masterclass	15 Minutes
Dr. Marco Bassi (Brazil)	Evidence Update: Outcomes, Infection, and Recurrence Risks	15 Minutes
	Introducing NOSE in Your OR: Training, Consent, and Team Integration	15 Minutes
All Faculties	Panel Q&A + Open Floor Discussion	30 Minutes

WELCOME REMARKS 8:00 AM - 9:00 AM		
February 6 - Friday - Breakout Room 2		
PS Different Expert Strategies to reduce the impact and optimize the outcome of Adenomyosis		
Chair: Pr. Rajesh Devassy (UAE) Pr. Vlad Tica (Romania)		
9:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
		10 Minutes
Pr. Caterina Exacoustos (Italy)	Advanced Diagnostic Techniques: 3D-Ultrasound and MRI in advanced Protocols	
Dr. Oula Maati (UAE)	Imaging markers in adenomyosis	
	The diagnostic role of histopathology in adenomyosis	10 Minutes
Dr. Ursula Catena (Italy)	Fertility Preservation & Reproductive Outcomes: Pre-IVF Management Strategies	15 Minutes
	Surgical Management for fertility preservation	
	Emerging and non-surgical minimally invasive treatments:	
Pr. Rudy Leon De Wilde (Germany)	Thermal Ablation Techniques: High-Intensity Focused Ultrasound (HIFU), Radiofrequency Ablation (RFA), and Percutaneous Microwave Ablation (PMWA)	15 Minutes
Dr. Maya Sophie de Wilde (Germany)	Uterine Artery Embolization (UAE)

COFFEE BREAK - 11:20 AM - 11:40 AM		

February 6 - Friday - Breakout Room 2		
PS "Integrating Neuropelveloogy into Advanced Endometriosis Care: A Practical Framework"		
Chair: Pr. Benoit Rabischong (France) Pr. Nucleio Lemos (Canada) Dr. Brice Rodriguez (UK)		
Learning Objectives:		
This session presents a forward-looking and clinically strategic framework for integrating Neuropelveloogy into advanced endometriosis care — extending beyond the operating room into diagnosis, intraoperative intelligence, and long-term functional recovery. Expert faculty will guide the audience through why we operate on, how we decide to preserve or resect, how technology is reshaping safety, and what truly determines long-term outcomes. The session concludes with a high-level multidisciplinary discussion led by the Chairs.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Dr. Shaheen Khazali (UK)	How to Recognize a Neuropelveloogy Patient Before Even Operating	15 Minutes
Dr. Filipa Osorio (Portugal)	Nerve-Sparing Strategy Selection: When to Preserve, When to Resect	15 Minutes
Pr. Benoit Rabischong (France)	Intraoperative Nerve Monitoring and AI — How Much Safer Do These Technologies Make Our Surgeries?	15 Minutes
Pr. Nucleio Lemos (Canada)	Multidisciplinary Pathway After Surgery: What Makes or Breaks Outcomes	15 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		
KEYNOTE LECTURE - 13:40 PM- 15:10 PM		

February 6 - Friday - Breakout Room 2

Pr. Joerg Keckstein (Austria)	The Role of Classification	15 Minutes
bloc	Mental Rehearsal	15 Minutes
Dr. Bedayah Amro (UAE)	Is still the clinical exam the pivot of surgical decision?	15 Minutes
Dr. Antoine Watrelot (France)	Patient Counseling and Consent	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
WELCOME REMARKS 8:00 AM - 9:00 AM		

SIGNATURE MASTERCLASS "Query on Acreta" - 9:00 AM - 10:30 AM		
HANDS ON TRAINING Session - 10:30 AM - 11:20 AM		
COFFEE BREAK - 11:20 AM - 11:40 AM		

February 6 - Friday - Exclusive Room		
PS "Adhesion Research Session: A Call for Action on the Most Frequent Iatrogenic Surgical Complication"		
Chair: Pr. Rudy Leon De Wilde (Germany) Pr. Attilio Di Spiezio Sardo (Italy) Pr. Ertan Saridogan (UK)		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Pr. Philippe Koninckx (Belgium)	Beyond basics: a scientist's perspective on 40 years of adhesion prevention	15 Minutes
Pr. Maya Sophie de Wilde (Germany)	The impact of elevated inflammatory response on adhesion formation during surgery; can hypotheses drive scientific advance without RCT's?	15 Minutes
Dr. Ursula Catena (Italy)	Adhesion prophylaxis in laparoscopic surgery: evidence and future directions	15 Minutes
Dr. Ursula Catena (Italy)	Real world evidence on adhesion prophylaxis in extended hysteroscopic surgery: are we there yet?	15 Minutes
Pr. Rajesh Devassy (UAE)	A video guide on effective adhesion prophylaxis	15 Minutes
All Faculties	Award: Best Abstract on Adhesions	5 Minutes
All Faculties	Q&A Discussions	10 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		
KEYNOTE LECTURE - 13:40 PM- 15:10 PM		

February 6 - Friday - Exclusive Room		
PS ROBOTIC SESSION		
Chair: Dr. Denis Tsapov (UK)		
Pr. Gaby Moawad (USA)		
15:10 PM to 16:40 PM		
Faculty Name	Lecture Title	Duration
Dr. Charlotte Maene (Belgium)	Improving Robotic Operating Room Efficiency	15 Minutes
Dr. Denis Tsapov (UK)	Complications and near misses related to robotic surgery	15 Minutes
Dr. Nair Raj (UK)	Reconstructive robotic surgery for urinary tract endometriosis	15 Minutes
Dr. Eugene Grobovenko (UK)	Informed consent for robotic deep endometriosis excision – are your patients well informed?	15 Minutes
Pr. Gaby Moawad (USA)	Standardization of robotic endometriosis excision	15 Minutes
COFFEE BREAK - 16:40 PM - 17:00 PM		

February 6 - Friday - Exclusive Room		
PS Endometriosis Related Pain		
Chair: Dr. Gabriele Centini (Italy)		
17:00 PM to 18:30 PM		
Faculty Name	Lecture Title	Duration
Pr. Benoit Rabischong (France)	When Pain Speaks: How to Recognize Neuropathic Patterns in Pain	15 Minutes
Dr. Filipa Osorio (Portugal)	Timing is Everything: Surgical Indications and When to Intervene	15 Minutes
Pr. Helder Ferreira (Portugal)	The Surgical Goal: Achieving Complete and Effective Excision	15 Minutes
Dr. Eiman Al Zahmi (UAE)	Location Matters: Tailoring Surgical Expectations to type of symptoms and lesion Sites	15 Minutes
Dr. Gabriele Centini (Italy)	The Pain That Persists: Managing Residual or Centralized Pain After Surgery	15 Minutes
	FIGO-IPPS consensus statement: Addressing the global unmet needs of women with chronic pelvic pain	15 Minutes
Dr. Georgine Lamu (USA) - Online		
All Faculties	Q&A Discussions	15 Minutes

CONGRESS WORKSHOPS: Total of		
February 7, Saturday - DAY 3		
WELCOME REMARKS 8:00 AM - 9:00 AM		
February 7 - Saturday - Ballroom 1		
SIGNATURE MASTERCLASS		
"Vaginal Cuff Closure after Laparoscopic Hysterectomy — Preventing Bleeding, Dehiscence and Vault Prolapse"		
Chair:		
Dr. Brice Rodriguez (UK)		
Learning Objectives:		
By the end of the session, participants should be able to:		
1. Explain how type of colpotomy energy affects tissue thermal injury and subsequent cuff healing.		
2. Compare suture materials and configurations (interrupted vs continuous vs barbed) for cuff closure and select the optimal technique for patient/situation.		
3. Perform a secure laparoscopic cuff closure (including barbed suture techniques) and troubleshoot common problems that lead to bleeding or early dehiscence.		
4. Repair of a dehiscence.		
5. Plan steps during the operation and peri-operative measures to reduce risk of future vault prolapse (including re-suspension / ligament reattachment).		
8:00 AM to 10:30 AM		
Faculty Name	Lecture Title	Duration
Dr. Brice Rodriguez (UK)	Welcome, objectives and quick poll	5 Minutes
		10 Minutes
Dr. Catherine Taylor (UK)	Anatomy/histology of the vagina – risk factors for dehiscence	
Pr. Ceana Nezhad (USA)	Colpotomy: what energy to use, impact on tissue. (available key literature)	15 Minutes
Dr. Catherine Taylor (UK)	Technique (ports placement) and suture material for vaginal vault closure. (available key literature)	15 Minutes
Dr. Zeinab Hakim (UAE)	Colpotomy in unusual situation : cervical fibroid, frozen/no cervix, small/large uterus. Repair of a dehiscence: tips and tricks	15 Minutes
Dr. Hanan Gharbi (UAE)	How to prevent vaginal vault prolapse?	15 Minutes
	Hands-on practical station(s) (recommended ratio 1 instructor : 3–4 delegates):	10 Minutes
VIDEO COMPETITION - 10:30 AM - 11:20 AM		
COFFEE BREAK - 11:20 AM - 11:40 AM		

February 7 - Saturday - Ballroom 1		
PS		
"Where Anatomy Meets Art: Crafting MIS Solutions for Genital Malformations"		
Chair:		
Pr. Leila Adamyan (Russia)		
Learning Objectives:		
By the end of the session, participants should be able to:		
• Understand classifications and diagnostics of genital malformations.		
• Recognize which cases benefit most from laparoscopy.		
• Learn step-by-step techniques for reconstructive laparoscopic surgery.		
• Avoid common pitfalls and manage complications efficiently.		
• Develop a multidisciplinary mindset for patient-centered care.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Pr. Leila Adamyan (Russia)	Introduction: Why Genital Malformations Matter in Modern Laparoscopic Practice	5 Minutes
Pr. Grigoris Grimbizi (Greece)	Understanding Müllerian Anomalies: New Classifications, Imaging, and Surgical Implications	20 Minutes
Pr. George Platofidis (Greece)	Laparoscopic Management of Obstructive Anomalies: Hematometra, Cervical Agenesis, and Complex Septa	20 Minutes
Pr. Leila Adamyan (Russia)	Reconstructive Laparoscopy in Vaginal Agenesis: Neovagina Creation and Beyond	20 Minutes
Pr. Attilio Di Spiezio Sardo (Italy)	Hysteroscopic approach of utero-vaginal malformations	20 Minutes
All Faculties	Q&A Discussions - Decision Making in Rare Cases: When to Operate, When to Refer	20 Minutes
Pr. Leila Adamyan (Russia)	Wrap-up and Key Takeaways	5 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		
February 7 - Saturday - Ballroom 1		
Keynote Lecture 2		
TBC		
Chair:		
14:40 PM to 15:10 PM		
Faculty Name	Lecture Title	Duration
Dr. Alberto Mattei (Italy)	Interval time between myoma surgery and pregnancy - Title to be confirmed	30 Minutes
February 7 - Saturday - Ballroom 1		
PS		
Social Media - "From Scalpel to Screen: The Role of Social Media in Modern Medical Practice"		
Chair:		
Pr. Rodrigo Fernandes (Brazil)		
Dr. Basma Almaamari (UAE)		
Learning Objectives:		
By the end of the session, participants should be able to:		
• Explore the opportunities and challenges of using social media in medical education, patient engagement, and professional branding.		
• Understand ethical and legal considerations in digital communication.		
• Highlight the growing impact of online communities on patient care, public health narratives, and surgeon visibility.		
15:10 PM to 16:40 PM		
Faculty Name	Lecture Title	Duration
Dr. Andre Vinicius (Brazil)	From Scalpel to Screen: The Rise of the Surgeon-Influencer!	15 Minutes
Pr. Giuseppe Bigatti (Italy)	Digital Education: Leveraging Social Platforms for Teaching Surgery and MIS	15 Minutes
Pr. Vyta Senikas (Canada)	The Dark Side: Misinformation, Burnout, and Online Harassment	15 Minutes
Pr. Rodrigo Fernandes (Brazil)	Building a Community: Using Social Media to Connect with and Empower Patients	15 Minutes
Dr. Antoine Watretot (France)	Legal Pitfalls and Ethical Boundaries in Digital Health Communication	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
COFFEE BREAK - 16:40 PM - 17:00 PM		
WELCOME REMARKS 8:00 AM - 9:00 AM		
February 7 - Saturday - Ballroom 2		
PS		
"HYSTEROSCOPY 2"		
Chair:		
Dr. Rudi Campo (Belgium)		
Pr. Attilio Di Spiezio Sardo (Italy)		
9:00 AM to 10:00 AM		
Faculty Name	Lecture Title	Duration
Pr. Giuseppe Bigatti (Italy)	Tissue Mechanical Removal Systems a new era in Operative Hysteroscopy	15 Minutes
Dr. Shahrzad Ansari (Iran)	The fundamental role of hysteroscopy in infertility	15 Minutes
Dr. Rudi Campo (Belgium)	Hysteroscopic cytoreductive surgery for adenomyosis improves take home baby rate significantly	15 Minutes
Pr. Attilio Di Spiezio Sardo (Italy)		15 Minutes
Dr. Brunella Zizolfi (Italy)	Pushing the Limits of Hysteroscopic Surgery: Challenges and Breakthroughs in Complex Cases	15 Minutes
All Faculties	Q&A Discussions	15 Minutes
FREE COMMUNICATION 5 - 10:30 AM - 11:20 AM		
COFFEE BREAK - 11:20 AM - 11:40 AM		
February 7 - Saturday - Ballroom 2		
Debate		
"Peritoneal Endometriosis: From Pathophysiology to Precision Surgery"		
Chair:		
Pr. Philippe Koninckx (Belgium)		
Learning Objectives:		
By the end of the session, participants should be able to:		
• Understand classifications and diagnostics of genital malformations.		
• Recognize which cases benefit most from laparoscopy.		
• Learn step-by-step techniques for reconstructive laparoscopic surgery.		
• Avoid common pitfalls and manage complications efficiently.		
• Develop a multidisciplinary mindset for patient-centered care.		
11:40 AM to 13:10 PM		
Faculty Name	Lecture Title	Duration
Pr. Philippe Koninckx (Belgium)	Physiopathology of Peritoneal Endometriosis: Typical and Atypical Lesions	15 Minutes
Dr. Dimitrios Kafetzis (UAE)	Peritoneal Lesions and Infertility: More Than Meets the Eye	15 Minutes
Pr. Caterina Exacoustos (Italy)	Clinical and Imaging Diagnosis: Seeing the Invisible	15 Minutes
Dr. Ramon Rovira (Spain)	Surgical Approach to Peritoneal Lesions: From Mapping to Management	15 Minutes
Dr. William Kondo (Brazil)	Augmented Reality in Peritoneal Disease: Friend or Foe?	15 Minutes
All Faculties	Debate - 'Excision of All Peritoneal Lesions Improves Outcomes – Myth or Must?'	15 Minutes
LUNCH BREAK - 13:10 PM - 14:40 PM		
KEYNOTE LECTURE - 14:40 PM - 15:10 PM		
February 7 - Saturday - Ballroom 2
